## What is a Backer?

Elyse - 2019-07-03 - Comments (0) - The Basics

A Backer is a user who has donated more than \$2 to the app, or a user who bought the pro level and continues to donate through optional in-app purchases. In other words, you become a "stakeholder" of our app. We thank you for supporting Signal Spy with your generosity!

Backers also gain access to a special channel on Discord. Anyone can join [Novvia's server](#), but only Backers have access to the Backers' channel! This is where you can chat with each other, ask questions, and even talk directly to the developers at Novvia.

New to Novvia is our [Novvia Backers](#) Google Group! We plan to use this group as a way for you, Backers, to help us with testing new Signal Spy releases, other new app releases, and new app builds.

Coming soon for Backers is priority support! We are working on a support system in order to give priority to Backers. More to come!
