How much does it cost?

Elyse - 2019-07-03 - Comments (0) - The Basics

Signal Spy does not cost anything to install! We will always have a free level that provides most of the functionality of our app. We do include ads to help offset development costs. We also created a pro level to allow our users to have an even better experience, which is available as a \$2 in-app purchase from the store section.
