NEW - Preferred Network

Elyse - 2019-09-12 - Comments (0) - Features

If you are a Signal Spy Pro user with Google Fi, you can now choose to which network you prefer to be connected: T-Mobile, Sprint, or US Cellular. When Google Fi switches you to a different network, you will receive a notification with the option to switch back to your preferred network!

Hide Notification in Lock Screen

Attempts to detect when the lockscreen comes up and hides the notification

(Due to current limitations of Android and Google Fi, force-switching networks must remain a manual rather than automatic process.)
